The Pre-Paid Legal Advisory Council

Pre-Paid Legal has been providing a Life Events Legal Plan™ for **over three decades** and now serves over **1.5 million families**. Last year alone, our firms in 48 states and 4 provinces received over **2.8 million calls** from our members!

[Here's what our members say about us and how they've used their membership.](#)

Life Events Legal Plan™

We give members access to professional legal counsel not only for traditional legal problems, but for everyday events such as:

- buying a house or a car
- creating a will
- handling a problem with an insurance company
- dealing with identity theft...

...and much more where legal review should be routine, but rarely is. These events can be among the most important events in a person's life, yet there is a tendency for them to take place without proper legal review. For Pre-Paid Legal members, access to legal counsel is only a toll-free phone call away.

Identity Theft Shield™

Pre-Paid Legal markets the Identity Theft Shield™ to help you stay ahead of the curve. One of the most talked-about and fastest growing white-collar crimes in history, identity theft is a problem you can't afford to ignore.

Your Living Will

Every year thousands of families quietly face life altering decisions. A family member becomes critically ill (perhaps even placed on life support) and unable to make his or her own medical decisions, then someone must make those decisions. Who should decide? What should they do? [...read more.](#)
