Brad Miller
Chief Executive Officer
Pinellas Suncoast Transit Authority
3201 Scherer Drive
St. Petersburg, FL 33716

Dear Mr. Miller,

All for Transportation is pleased to express our enthusiastic support for the Central Avenue Bus Rapid Transit (BRT) sponsored by the Pinellas Suncoast Transit Authority (PSTA).

The lack of reliable and efficient transportation throughout Tampa Bay is an impossible barrier for many people to overcome. Transportation is more than getting from one place to another, it is an equalizer. It provides opportunity and upward mobility. Our region needs a full range of transportation options that service our job centers and neighborhoods. Tampa Bay needs a transit system that weaves together our unique and distinct communities across our various cities and counties, that provides choice, and serves everyone.

The vision of a multimodal region is only realized if we embrace and support investment in local transportation solutions. Local catalyst transit projects like the Central Avenue BRT will drive regional change and provide critical links for future systems to connect to. This project will meet an important local need by providing increased access to education, healthcare, employment, and entertainment. Local projects that expand right-of-way transit options are regionally significant and we support federal and state funds directed toward such projects to maximize local investment.

As advocates for safe, efficient, and multimodal transportation solutions, we applaud PSTA for pursuing the Central Avenue BRT and providing the communities they serve with new, reliable transit options.

Sincerely,
